EXECUTIVE OVERVIEW: CONDITION-BASED DEDUCTION ARCHITECTURE

1. Multi-Tier Defect Separation: Both platforms evaluate across 7 discrete conditions, but Cashify heavily penalizes non-functional items.
2. Honest Screen Ceiling: Fundu caps AMOLED screen glass cracking at a fair 45% deduction, whereas Cashify devalues broken screens up to 52%.
3. Transparent Accessory Economics: Fundu provides guaranteed additive bonuses for Box (+Rs. 300), Charger (+Rs. 300), and Bill (+Rs. 200).
4. Doorstep Settlement Integrity: Cashify agents routinely downgrade "Good" phones to "Fair" at door; Fundu enforces verified quote locking.
